

# Sharpen Our Skills

WHITE LAKE TOWNSHIP

April 12, 2024

Rik Kowall, Supervisor

Good morning, and thank you all for joining us today. We're thrilled to gather here and share some exciting updates about White Lake Township.

First and foremost, let's talk about the biggest project—the Civic Center. This ambitious project includes a new Township Hall, a state-of-the-art Public Safety Building, and a vibrant Downtown district with retail and living spaces. It's not just a development; it's a commitment to progress and community enhancement.

We're delighted to announce that Phase 1 of Stanley Park is set to kick off this Spring, promising green spaces and recreational opportunities for all to enjoy. Additionally, the Triangle Trail construction is already underway, connecting our community in more ways than one.

There is even more excitement on the horizon! Over the next couple of weeks, the openings of several new businesses right here in White Lake; Seaviches, Saroki's, Earthwise Pet Care, Salon Suites, City Burger, and ReInvent You.

With so much growth and innovation, there's never been a more exciting time to be a part of the White Lake community.
